

YERXA ROAD PEDESTRIAN UNDERPASS PROJECT

SOUTH SIDE OF PROJECT

SEPTEMBER 20, 2005

CONSTRUCTION NOTICE

We would like to inform you that the Contractor, J.F. White Contracting, will be starting the pile driving operation to install the steel sheeted earth support system. This operation is scheduled to start during the week of September 26, 2005 and will continue until mid October.

Due to the nature of this work you will experience minor vibrations in your building. This will most likely affect those nearest to the construction site. Please be advised you may want to remove any valuables from your shelves and walls to avoid potential damage during this phase of the work.

During the installation of the above earth support system an independent consultant will be monitoring to ensure that the vibrations are well within industry standards for this type of work.

We thank you for your anticipated understanding and cooperation. If you have any questions, please call Robert Gowen at the CDM Field Office between 7:00 am and 4:00pm at 617 497-0371.

PLEASE SAVE THIS NOTICE FOR YOUR REFERENCE IN CASE YOU HAVE ANY
QUESTIONS REGARDING CONSTRUCTION
